We are uniquely qualified to meet your needs and can complete your fabrication requirements with the following materials:

- ⦿ Carbon Steel
- ⦿ Stainless Steel
- ⦿ Alloys
- ⦿ Aluminum

Capabilities summary

- ⦿ The people at EIE are production and custom fabrication experts. We focus on and specialize in quickly meeting your need for fabricated metal parts or products – those items that are critical to your operation or final output. Your low / high volume, short run, custom, or prototype parts will NOT get the “back burner” at EIE.
- ⦿ EIE Metal Fabrication can work with your facilities people to correctly install your EIE-manufactured custom fabrication product. Installation work can be performed days, nights, weekends, and/or during shutdowns to help minimize any disruption to your company's operation.

Clients / Projects
